

PARTICLE6 | PRODUCTIONS

Job Title: Senior AI Video Editor

Location: Remote / Hybrid

Duration: Full-time / Freelance

Start Date: ASAP

Experience: 8+ Years

Compensation: DOE

About Particle6

Particle6 is an award-winning creative production company blending boundary-pushing storytelling with cutting-edge AI. From original TV series and documentaries to brand campaigns and immersive content, we use the latest AI tools to enhance the creative process across broadcast and commercial work.

About the Role

We're looking for a multi-skilled Senior AI Video Editor to join our team. If you love experimenting with AI tools, this is your chance to push creative boundaries with us. You'll be hands-on across everything from commercials to original films, using AI-driven workflows to bring ambitious ideas to life.

As we have a lot of exciting projects in the works, you'll need to jump right into our AI-driven workflows. You'll have already produced AI content—social media clips, short ads, or even films—and have the eye and technical skills to deliver professional results. We're not looking for a drone shot montage; we want to see your portfolio of AI-generated content.

What You'll Be Doing

- **AI Video Creation:** Crafting short-form content, branded projects, and experimental films from concept to final delivery.
- **Editing & Motion:** High-end cutting, grading, and motion graphics, blending traditional techniques with AI-assisted animation.
- **Sound Design:** Shaping audio landscapes using AI voice synthesis and immersive sound tools.
- **Creative R&D:** Prototyping new visual styles and testing emerging AI tools to refine our

production pipeline.

- **Concept Development:** Collaborating on story ideas, treatments, and moodboards to transform abstract concepts into visuals.
 - **Collaborative Delivery:** Working with directors and technologists to integrate AI across the full production lifecycle.
 - **Trend Spotting:** Staying ahead of the curve on AI tools, motion trends, and platform aesthetics to keep our work cutting-edge.
-

What We're Looking For

- **Experience:** 8+ years of professional editing for branded content or TV.
 - **AI Model Expertise:** Hands-on experience using and testing leading models in professional client work, including **Seedance, Kling, Veo, Nano Banana, GPT, Seedream, ElevenLabs** and more.
 - **Platform Proficiency:** Familiar with at least some of the main AI platforms such as **Weavy, ComfyUI, Higgsfield, OpenArt, Flow, Luma, and Topaz.**
 - **Workflow Skills:** Comfortable with both traditional editing and building your own node-based workflows.
 - **Software Mastery:** Expert-level skills in Adobe Premiere Pro, After Effects, and Photoshop.
 - **Editorial Instinct:** A sharp eye for rhythm, nuance, and emotional impact; you know how to make an edit land.
 - **Operational Excellence:** Strong organisational skills with a focus on timeline management and file structure in fast-paced environments.
 - **Proactive Mindset:** A genuine passion for experimenting with emerging creative technology and an eagerness to continue learning and upskilling.
-

How to Apply

Please send your **CV** alongside any relevant information to hire@particle6.com.

- **Right to Work in the UK** - please provide any details where necessary

- **Salary Expectations** - please provide a range or specific figure
- **Notice Period / Availability**
- **Academic Qualifications** — a full breakdown. Please include specific secondary school results (e.g. GCSEs or international equivalents) as well as any degree/higher education details. If any are unavailable, please clearly state this.

N.B. We understand that everyone's journey is different and that qualifications don't always tell the whole story. As noted above, gathering this information is a standard part of our recruitment process — but we're very open to hearing about all experiences and circumstances, so please feel free to share any context you'd like us to consider.

Accessibility

Please contact hire@particle6.com for any questions or if you require any accessible adjustments to the application process.

GDPR statement

By applying you consent to Particle6 retaining your application for 12 months unless you say otherwise.

Privacy & Your Data

We take your privacy seriously. Every application is reviewed manually by our hiring team. For full details on how we store your information and your rights under the Data Protection Act, please see our [Recruitment Privacy Notice](#).

This role will require you to complete a self-declaration of any unspent criminal convictions prior to or at the commencement of your employment.
